

MyNortonChart Wait List

Managing your appointments
just got easier

Take control of appointment scheduling with the MyNortonChart wait list feature! The wait list allows you to be notified if an earlier appointment becomes available.

How it works:

- The digital wait list will send you an alert if an earlier appointment time opens up. Wait list appointment times are given to the first patient to accept the offer, so be sure to confirm an appointment alert as soon as possible.
- If you decline an appointment offered through the wait list, your original appointment time remains, and your name will stay on the wait list for other openings.
