

Summary of Financial Assistance for Hospital-Based Emergency or Medically Necessary Care

For more than a century, Norton Healthcare's faith heritage has guided its mission of caring for the sick and injured in our community. That faith heritage influences every aspect of the care we provide. Norton Healthcare's hospitals provide free or discounted care to patients who cannot afford to pay and qualify based on income, resources and family situation. This summary provides a brief overview of our Financial Assistance Policy for hospital-based emergency or other medically necessary care.

Who is eligible for this financial assistance?

If you have limited income and/or resources, no health insurance or a balance after health insurance, you may qualify for free or discounted emergency or medically necessary care based on the following criteria:

1. You do not have health insurance or you have an unpaid balance after the insurance plan has either paid or rejected a claim; and
2. You do not qualify for subsidized coverage or government assistance, such as Disproportionate Share Hospital (DSH), Children's Health Insurance Program (CHIP), Medicaid, Medicaid Managed Care Organization (MCO) or Hoosier Healthwise; and
3. Your family unit income is equal to or less than 350 percent of the Federal Poverty Guidelines; and
4. Your family unit's resources (assets) are equal to or less than 200 percent of the DSH guidelines; and
5. To be eligible for assistance for non-emergent Medically Necessary Care, you must also be a resident of Kentucky, Indiana, Tennessee, Ohio or Illinois. This residency requirement does not apply to Emergency Care.

The Financial Assistance Policy also describes certain additional eligibility criteria for certain services.
