

NORTON
SPECIALTY PHARMACY

Personalized Patient Care

Norton Specialty Pharmacy
Patient Services

Norton Specialty Pharmacy is conveniently located in East Louisville, where we provide advanced pharmacy services to patients needing specialized medications. We strive to provide care and assistance to improve the lives of patients taking high-cost or complicated medications. We offer free medication delivery to anyone living in Kentucky and Indiana.

Our services

New prescriptions

Your provider will send a prescription to our pharmacy when your treatment is determined, or we will work with your provider to obtain a new prescription upon request. We also can transfer your prescription from another pharmacy upon request.

Refill reminders

A member of our team will contact you several days before a refill is due, so you don't run out of medication. If you need a refill before we contact you or need to check on the status of a refill, call **(502) 559-1310** or toll-free **(866) 616-8088**. We are available after hours for urgent situations.

Medication delivery

We offer several ways to get your prescription to you. You may pick it up in person at the pharmacy, or we can ship it to you at no additional charge. We also offer delivery directly to your provider's office if the medication is to be given by a nurse during your appointment.

Medication access

We have access to or keep in stock a wide variety of specialty medications. If we are not able to obtain your medication, we will work with you, your health care team and/or another pharmacy to ensure you get the medication you need.

Generic substitutions

The pharmacy follows applicable laws and regulations regarding generic substitutions. We will dispense the lowest-price generic drug in stock that is therapeutically equivalent to the drug prescribed by your provider, unless you or your provider do not approve.

Prescription transfers

Using Norton Specialty Pharmacy is optional. If you would like to use another specialty pharmacy, call us and we will assist with the transfer of your prescription.

Sometimes insurance requires the use of another pharmacy. In these cases, we will notify your prescriber and ensure a prescription is sent to the new pharmacy. You also may ask the prescriber to send a new order to your chosen pharmacy.

Additional services

Patient management

Upon receiving a prescription from your health care provider, our pharmacy team will ask if you want to enroll in an individualized specialty medication service called Patient Management Services. Enrollment in this service is optional, and you may opt in or out at any time. This service helps you manage your medication schedule and side effects, and better follow your treatment plan. Patient Management Services are provided to you at no additional cost.

Clinical support

A trained specialty pharmacist will explain your medication in person or by phone. Our pharmacists also will collaborate with your doctor to optimize your specialty medication therapy. This support includes, but is not limited to, avoiding drug interactions, monitoring labwork if needed, and resolving other medication-related issues. Our pharmacists are available 24 hours a day if you need to report a suspected medication-related issue.

Support tools and products

Our team will provide tools and products to help you succeed with your medication. These include pill reminder boxes, personalized medication calendars, patient education sheets, disposal containers and other supplies.

Interpreter services

Effective communication is essential for safe, quality care. Norton Healthcare provides medical interpreter services at no cost. This helps ensure we can communicate with those who do not speak English, are deaf or hard of hearing, or have other communication challenges. Be sure to share your preferred language or mode of communication with the pharmacy.

Financial services

Prior authorization

Insurance companies often require additional information before specialty drugs will be covered. This is called prior authorization. Our pharmacy team will work with your insurance company and provider to obtain prior authorization approval.

Insurance billing

Norton Specialty Pharmacy will bill your insurance company. However, you may have to pay a portion of the medication's cost, which is called a copayment or coinsurance. You will be responsible for paying your copayment when you order your medication or refill. You will always be informed of the exact amount that you are responsible to pay for your prescription. If this amount is not affordable, we offer financial assistance.

Financial assistance

In some cases, the copayment for a specialty medication may be unaffordable despite an insurance company paying most of the cost. Our team will work with you and available financial support resources to possibly lower your drug therapy cost.

Payment options

If you have a copay or any balance after financial assistance, we accept all major credit cards. We also accept cash, personal checks, and flexible spending or health savings account cards.
