

Norton Neuroscience Institute Memory Center

Brain Health Navigator Program

Personalized care and support when you need it most.

Did you know?

The diagnostic and care pathway for those with cognitive concerns and dementia can be complex. Our Brain Health Navigator program is designed to enhance identification and treatment of those with cognitive concerns, facilitate timely access to treatments and community resources for patients with Alzheimer's or related dementia.

Beginning January 2024, Centers for Medicare and Medicaid Services (CMS) and some private insurers recognize and reimburse these services. If applicable, these services will appear on your bill and may be covered in part or in full by your insurance plan.

What to expect

- Personalized plan of care by a Brain Health Navigator
- Guidance and support along your brain health journey
- Disease education and community resource coordination

Now seeing patients

- Medicare/ Medicare Advantage plans
- Patients with involved care partners
- Patients needing extra support navigating resources
- Patients interested in Anti Amyloid Treatments
