

We Want Your First Stop to Be Home

Get your specialty prescriptions before
you leave the hospital

The products and/or services provided to you by Norton Specialty Pharmacy are subject to the supplier standards contained in the federal regulations shown at 42 Code of Federal Regulations Section 424.57©. These standards concern business professional and operational matters (e.g., honoring warranties and hours of operation). Upon request we will furnish you a written copy of the standards.

Norton Women's & Children's Hospital
First floor (across from main elevators)

4001 Dutchmans Lane, Louisville, KY 40207
(502) 559-1310 phone • (866) 616-8088 toll-free
(502) 559-1305 fax

Hours

Monday through Friday, 8 a.m. to 6 p.m.

Pharmacy support offered 24 hours a day, seven days a week.

Norton Specialty Pharmacy at Norton Women's & Children's Hospital stocks medications for complex, rare and chronic health conditions as well as specialty treatments that may be difficult to obtain at most retail pharmacies. Receive your specialty medications quickly and speak with our knowledgeable pharmacist before starting new medications.

Our services include:

- In-depth counseling available in person or by phone
- Personalized medication reviews
- Prescription refill reminder program
- Specialized billing (including Medicare Parts B and D)
- Convenient delivery and pickup options

Prior authorization and financial assistance

We try our best to find the lowest medication cost for you, including working with assistance programs if you are unable to afford your medications.

To obtain a specialty medication, extra steps may need to be taken, such as prior authorization. This may take additional time, but our pharmacy staff will help navigate the process to help you get your medications as quickly as possible.

To learn more about our specialty services, contact us at **(502) 559-1310** or **nortonspecialtypharmacy@nortonhealthcare.org**.

Resources

We want to help you understand and manage your health condition. Knowing how to cope with your diagnosis can lead to better health and quality of life. Ask a pharmacist about specialty medications and find additional information about complex, rare or chronic health conditions at the sites below.
